Distances from the concourse to trains can be lengthy at Leeds City so to assist you in a timely and safe manner we would request our passengers to arrive in good time; we recommend arriving 20 minutes prior to departure.

When arriving at the station by train where it is the terminating stop for the train, our aim is to meet you on time. Sometimes it may take us a little longer because we often assist more than one passenger per train, but we have a service commitment to not exceed 5 minutes from arrival and 10 minutes during disruption.

If you arrive at the station much earlier than your planned departure time, you may have to wait for assistance staff to become available.

Leeds City is a very busy station for Passenger Assistance bookings. Because our station is so busy, we do recommend that you book in advance wherever possible.

Pre-booked assistance can be booked up to 2 hours in advance of travel.

Accessing passenger assist services

Assistance for any journey, including journeys with multiple connections using multiple train companies, can be booked in advance, or can be requested on the day from a member of staff.

Booking in advance

There are several ways you can book assistance in advance:

1. **Contact the relevant train operator for your journey via their website.**
2. **Passenger assistance on a web browser passengerassistance.com.** We will tell you when your booking is confirmed. Then, all you have to do is book your ticket and you're on your way.
3. **Transreport Passenger Assistance App.** You will be able to download the app by searching for "Passenger Assistance" on your app store (iOS/Android). Once found, click 'Install' and wait for the app to appear. Send your request to book assistance on the app and this will be sent directly to the train operator, who will arrange assistance for you. We will tell you when your booking is confirmed. Then, all you have to do is book your ticket and you're on your way.

4. Visit the [National Rail Enquiries website](#).
5. Follow the instructions provided via any other train booking service provider.

On the day you can request assistance from any of our team or go directly to our assisted travel meeting point where one of our team will help arrange assistance with you.

Tell us about your journey

The booking agent will need to know the following information, so it may be useful to have this to hand when you call:

- The date and time of the service you are planning to travel on
- Your seat reservation details (if you have one)
- If you are travelling with other people, especially if they also require assistance, at London King's Cross our assistance vehicles can only seat three people each
- If you have any requests such as a preference to being assisted on foot rather than in a buggy, please make this clear to the booking agent

‘Turn up and go’

As well as booking in advance, you can ask for assistance on the day that you are travelling. For turn up and go, passengers need to arrive at least 10 minutes before departure.

Assistance services are available at all times trains are running. You may need to wait until staff are available to help, but our policy is to make it happen. After 23:00 we will try to assist you, but due to staffing levels there may be a short wait.

You can ask any member of staff at the station or go to our customer information point at the times it is open.

Planned or unplanned disruption

We will tell you about disruption to services by displaying information on our customer information screens and making audio announcements throughout the station.

If you have booked and/or require assistance during times of disruption we would ask that you make yourself known to one of our station colleagues at the assisted travel lounge or the Passenger Assist meeting point who will support you by providing information on your booked service, and will assist with your onward journey including rearranging assistance as necessary.

All information during disruption will be communicated to you including regular delay updates to help you decide on your travel preferences and if required, how to access suitable alternative transport options.
