Tactile paving/panels

Tactile paving/panels are used to help passengers with visual impairments to detect the platform edges at our stations. These are comprised of bumps that are detectable with a walking cane, by guide dogs and/or felt underfoot.

At Manchester Piccadilly station all of our platforms are fitted with tactile paving/panels.

Arriving by car

Our pick-up/drop-off point is located on Fairfield Street just beyond the entrance and next to the taxi rank and short stay car park.

Use the postcode **M1 2QF** for sat nav.

Parking

There is a short stay car park at our Fairfield Street entrance, we also have a long stay facility within the Multi Storey car park, which is located on Sheffield Street at the rear of the station. You can gain access to the main station from this location via the lifts.

The bus station is located in Piccadilly Gardens and is approximately half a mile away from Approach Road. The bus station provides bus services to the surrounding areas within Greater Manchester. We regret we cannot assist between the bus station and Manchester Piccadilly.

Our staff are available when you arrive or depart the station during opening hours every day and will help passengers who need or have booked passenger assistance between the taxi rank and the station.

Distances from the concourse to trains can be lengthy at Manchester Piccadilly so to assist you in a timely and safe manner we would request our passengers to arrive in good time; we recommend arriving 20 minutes prior to departure.

When arriving at the station by train where it is the terminating stop for the train, our aim is to meet you on time. Sometimes it may take us a little longer because we often assist more than one passenger per train, but we have a service commitment to not exceed 5 minutes from arrival and 10 minutes during disruption.

If you arrive at the station much earlier than your planned departure time, you may have to wait for assistance staff to become available.

Manchester Piccadilly is a busy station for Passenger Assistance bookings. Because our station is so busy, we do recommend that you book in advance wherever possible.

Pre-booked assistance can be booked up to 2 hours in advance of travel.

Accessing Passenger Assist services

Assistance for any journey, including journeys with multiple connections using multiple train companies, can be booked in advance, or can be requested on the day from a member of staff.

Booking in advance

There are several ways you can book assistance in advance:

1. Contact the relevant train operator for your journey via their website.
2. **Passenger assistance on a web browser passengerassistance.com.** We will tell you when your booking is confirmed. Then, all you have to do is book your ticket and you're on your way.
3. **Transreport Passenger Assistance App.** You will be able to download the app by searching for "Passenger Assistance" on your app store (iOS/Android). Once found, click 'Install' and wait for the app to appear. Send your request to book assistance on the app and this will be sent directly to the train operator, who will arrange assistance for you. We will tell you when your booking is confirmed. Then, all you have to do is book your ticket and you're on your way.

4. Visit the [National Rail Enquiries website](#).
5. Follow the instructions provided via any other train booking service provider.

On the day you can request assistance from any of our team or go directly to our assisted travel meeting point where one of our team will help arrange assistance with you.

Tell us about your journey

The booking agent will need to know the following information, so it may be useful to have this to hand when you call:

- The date and time of the service you are planning to travel on
- Your seat reservation details (if you have one)
- If you have any requests such as a preference to being assisted on foot rather than in a buggy, please make this clear to the booking agent

‘Turn up and go’

As well as booking in advance, you can ask for assistance on the day that you are travelling (we call this ‘turn up and go’).

Assistance services are available at all times the station is open. You may need to wait until staff are available to help, but our policy is to make it happen.

You can ask any member of staff at the station or go to our Passenger Assistance Point at the times it is open. Alternatively, there is an assistance call point located inside the Fairfield Street entrance.

Using the station at busier times

Manchester Piccadilly is one of the busiest stations in the Northwest and there are times the station can become congested. Our station teams manage passenger flow during busier times.

Off-peak times are when the station is least busy – these are normally during the week after 09:30 until 16:00 and then after 18:30. Peak times occur before and after these times.

If you require assistance to travel through the station during busier times our team are available to assist. Please speak to a member of the team available throughout the station and they will be able to provide assistance to and from your train.

During busier periods there may be queuing systems in place. If you need assistance and cannot queue please speak to a member of staff who will be happy to assist.

If things do not go as planned

Booked assistance failures

Where your booked assistance has not been provided or does not go as confirmed by the operator, passengers can submit a claim for redress to the operator of the train they were travelling on, or due to travel on, when the failure took place. We will provide you information as required to help you.

If your assistance does not go as planned due to disruption please speak to a member of staff who will assist you on the next available service and let the onward station know to expect a delayed arrival.

Planned or unplanned disruption

We will tell you about disruption to services by displaying information on our customer information screens and making audio announcements throughout the station.

If there is disruption on your journey please speak to a member of staff who can advise you of the onward travel options.

If you have booked and/or require assistance during times of disruption we would ask that you make yourself known to one of our station colleagues at the assisted travel lounge or the Passenger Assist meeting point who will support you by providing information on your booked service, and will assist with your onward journey including rearranging assistance as necessary.

All information during disruption will be communicated to you including regular delay updates to help you decide on your travel preferences and if required, how to access suitable alternative transport options.

We will provide access and information on how to claim compensation when you are delayed.

Prior to any long-term refurbishments at our stations we will consult user groups and stakeholders.

We will notify you of any short or long-term refurbishments on our website and National Rail Enquiries to help you plan your journey in advance and when you are in our stations we will provide information prior to and during these refurbishment activities.
