This timetable contains passenger and parcel train services, together with associated stock and locomotive movements.

The importance of these services dictates that the planned working of these trains must always be maintained.

The associated resource diagrams must at all times be maintained. If, for any reason, it is necessary to cancel a particular service, care must be taken to ensure that the locomotive and train crews and, if necessary, rolling stock, are made available for the next diagrammed working.

NOTES

- (i) The codes shown in columns above train titles are train reporting numbers
The first position indicates classification, the second the destination indication as shown on page 2, the third and fourth positions the identity number of the train.
- (ii) Where no separate time is shown for arrival and departure, the time indicated is the departure time. Light figures indicate passing times.
- (iii) Trains must leave at the advertised time whenever practicable but, when booked to set down only, may depart as soon as station duties have been completed. Where the advertised departure time of passenger trains are slightly earlier than those shown in the Working Timetable, the former must be used in all quotations to the public.
- (iv) A half minute is allowed for station duties, unless separate arrival and departure times are provided or more time is specified by letter indications.
- (v) All dates shown herein are inclusive.

1. TIMING LOADS IN WORKING TIMETABLES

The timing load at the head of a unit operated train indicates the type of unit on which the timing of the train is based.

The timing load for locomotive hauled trains indicates the maximum speed of the train , i.e. **100, 75, 95** etc. the class of loco traction, **47 , 86, or 90** etc. followed by the tonnage on which the timing of the train is based.

2. TRAIN BRAKING

Locomotive hauled trains will normally be air-braked. In those cases where vacuum braking applies the symbol **VB** will be shown at the head of the train column.

M	Monday.	F	Friday.
T	Tuesday.	S	Saturday.
W	Wednesday.	SUN	Sunday.
TH	Thursday.		

- O** The addition of the letter 'O' indicates that the train will run on that day or those days only.
X The addition of the letter 'X' indicates that the train will not run on that day or those days.
BHX Does not run on Bank Holiday *Mondays* (Easter, May Day, Spring and Late Summer).

The days run normally appear between square brackets, e.g. **[SX]**. In the case of overnight trains, the days run may appear between asterisks indicating that the train departure was on the previous day, e.g. ***MX***. In this example, they indicate that the main train its starting point **SX**, but all the times in that particular column are **MX**.
